Re: Letter of Support

To Whom It May Concern:

I have personally known Rick Sagayadan and worked with him in a professional capacity for over 20 years and in particular, our community has witnessed his work in numerous productions, including works such as the documenting of Westbank First Nation (WFN) Self-Government process for the last 15 years, over 10 edited productions for the WFN Inter-Governmental affairs, Educational videos for our own Sensisyusten school.

Rick has asked me to write a letter of support for his new venture and company and I am happy to do so on our Community's/Organizations behalf. Rick has shown great support for our ideas over the years and it is nice to be able to show our support for him now. He has always shown the utmost respect for our culture, traditions, community members and our protocol and I see no reason why he will not continue to do so in all his future endeavors in any community he finds work within.

Rick's work with fellow members of his staff and interaction with our community members was professional and efficiently conducted. The end result of the project(s) was of very high quality and captured the essence of the event in a professional manner.
